

Applies to: the preliminary inquiry for the supply of laboratory extruder – 1 pcs.

Due to the submission of questions by one of the companies to the above-mentioned “preliminary inquiry”, the Awarding Entity provides the following answers to the questions asked:

Questions from the company:

- „1. Which material / which materials are to be extruded, this information is necessary to select the appropriate cutting system ?
2. Is the length of the plasticizing system correctly given because with the diameter of the screw fi 25,4 mm the length of the cylinder will be 152,4 mm.
3. What does the wording "twin packer feeding system" mean, should it be the capacity of the screw or the free space in the cylinder ?
4. What does the wording "twin packer feeding system" mean, is it about dispensers, if so, what volumetric or gravimetric for powders to granules or maybe a side packer feeder system? "

Responses of the Awarding Entity:

Answer 1

Mineral and organic materials, including ashes, biomass, coal culm and coal sludge, etc.

Answer 2

The given length is correct but the Awarding Entity allows for a larger screw diameter and a larger L / D ratio.

Answer 3

Free space in the cylinder. The Awarding Entity also allows larger volumes.

Answer 4

The Awarding Entity had in mind the use of an optional forced feeder system.

The Awarding Entity places the current Annex No. 1, i.e. the current technical requirements, on the website.

Considering the above, the Awarding Entity extends the deadline for submitting the preliminary offers.

The deadline for submitting the preliminary offers is: **31.03.2021**.

Sincerely,

M. Sc. Monika Wallenburg
